HEARING RESEARCH

Vol. 120, Nos. 1–2
June 1998

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update

Research Papers

H. Wada, M. Sugawara, T. Kobayashi, K. Hozawa and T. Takasaka (Japan)
Measurement of guinea pig basilar membrane using computer-aided three-dimensional reconstruction system 1

T. Ren and A.L. Nuttall (USA)
Acoustical modulation of electrically evoked otoacoustic emission in intact gerbil cochlea 7

R.R. Fay (USA)
Perception of two-tone complexes by the goldfish (*Carassius auratus*) 17

M. Müller and J.W.T. Smolders (Germany)
Hair cell regeneration after local application of gentamicin at the round window of the cochlea in the pigeon 25

S. Le Calvez, P. Avan, L. Gilain and R. Romand (France)
CD1 hearing-impaired mice. I: Distortion product otoacoustic emission levels, cochlear function and morphology 37

S. Le Calvez, A. Guilhaume, R. Romand, J.M. Aran and P. Avan (France)
CD1 hearing-impaired mice. II: Group latencies and optimal f_2/f_1 ratios of distortion product otoacoustic emissions, and scanning electron microscopy 51

D.F. Johnson, T.R. Prezant, B. Lubavin, W.E. Chaltraw and N. Fischel-Ghodsian (USA)
Isolation of overexpressed yeast genes which prevent aminoglycoside toxicity 62

R.R. Fay (USA)
Auditory stream segregation in goldfish (*Carassius auratus*) 69

D. Phippard, A. Heydemann, M. Lechner, L. Lu, D. Lee, T. Kyin and E.B. Crenshaw III (USA)
Changes in the subcellular localization of the *Brn4* gene product precede mesenchymal remodeling of the otic capsule 77

D.P. Sutherland, K.K. Glendenning and R.B. Masterton (USA)
Role of acoustic striae in hearing: discrimination of sound-source elevation 86

D. Ding-Pfennigdorff, J.W.T. Smolders, M. Müller and R. Klinke (Germany)
Hair cell loss and regeneration after severe acoustic overstimulation in the adult pigeon 109

S.L. McFadden, C. Kasper, J. Ostrowski, D. Ding and R.J. Salvi (USA)
Effects of inner hair cell loss on inferior colliculus evoked potential thresholds, amplitudes and forward masking functions in chinchillas 121

R.E. Lasky, B.D. Van Veen and M.M. Maier (USA)
Nonlinear functional modeling of scalp recorded auditory evoked responses to maximum length sequences 133

Contents continued on inside back cover

CONTENTS DIRECT

ContentsDirect, the ***free*** e-mail alerting service, delivers the table of contents for this journal directly to your PC, prior to publication. The quickest way to register for **ContentsDirect** is via the Internet at: **http://www.elsevier.nl/locate/ContentsDirect**. If you don't have access to the Internet you can register for this service by sending an e-mail message to cdsubs@elsevier.co.uk – specifying the title of the publication you wish to register for.

0378-5955(199806)120:1/2;1-J

(Contents continued from back cover)

T. Yamasoba and D.F. Dolan (USA, Japan)
The medial cochlear efferent system does not appear to contribute to the development of acquired resistance to acoustic trauma 143

Calendar of Events 152

Subject Index Volume 120 155

The table of contents of *Hearing Research* is included in ESTOC – Elsevier Science Tables of Contents service – which can be accessed on the World Wide Web at the following URL addresses:
http://www.elsevier.nl/locate/estoc or http://www.elsevier.com/locate/estoc

SUBMISSION PROCEDURE Please submit your manuscript plus three copies of all items including figures (a total of **four** original sets of micrographs should be submitted) and tables to:

Professor Aage Møller
(Editor in Chief)
at the Editorial Office of Hearing Research
P.O. Box 99187
Pittsburgh
PA 15233-4187
USA

Address for courier services:
Cleat Szczepaniak
Editorial Office of Hearing Research
985 Ringgold Street
Pittsburgh
PA 15220
USA

Cleat Szczepaniak
(Editorial secretary)
Tel./Fax +1 (412) 920-1911
E-mail cleats+@pitt.edu

For a full and complete Instructions to Authors, please refer to Hearing Research, Vol. 115, Nos. 1-2, pp. 226–228. The instructions can also be found on the World Wide Web: access under http://www.elsevier.nl or http://www.elsevier.com
